Paramount Dental Sydney

Crooked, Spaced, Crowded

Orthodontic treatments can begin no matter what your age.

About

No matter what your age, having crooked, spaced or crowded teeth is no fun. It can make it harder to brush, floss and keep your teeth clean making you a far greater risk of gum disease.

As you get older the long-term effects of crooked, spaced or crowded teeth on your overall health can be very serious. The stress on the jaw muscles often leads to headaches and chronic jaw, neck, shoulder and back pain. But treatment is available.

Treatment Options

Orthodontics (Teeth straightening)

- Braces
- Aligners
- Removable Appliances
- Lingual Braces

Other Solutions

- Crowns and Veneers
- Tooth Extraction
