

# Orthodontics for Adults

Orthodontic treatments can begin no matter what your age.

## About

Adults can undergo orthodontic treatment to correct crooked teeth, spaced teeth and crowded teeth. These problems can worsen over time if not appropriately addressed.

## Treatment | Process

Treatment may take longer for adults due to the fact that adult facial bones are no longer growing, and certain corrections may not be possible using only braces. Depending on the severity of your alignment problem sometimes a tooth extraction or surgery is required.

## Starting Orthodontic Treatments

The best way to begin is to book a regular checkup with our specialists here at Paramount Dental Sydney and talk to us about your concerns. We will conduct a thorough examination of your mouth, teeth and jaw to ensure that our recommendations are personalised to your unique situation.

## Cost | From \$2,500

Several factors may vary and increase the cost of treatment. We can advise you of the full cost and provide a treatment plan after your first orthodontic consultation.

**Paramount Dental Sydney**

**Dr Amrinder Oberoi**

Principal Dentist - BDS Hons. (NZ)

**Dr David Graham**

Dentist - LDS, RCS (Eng.), MSc (Lon.)
